Once you have made your final decision on purchasing a puppy from CaerCreek Labradors, it is time to place a deposit to secure your purchase. **The Deposit is \$500 and is nonrefundable** (except for reasons below). **Please make deposit check payable to: Janet Peters or Laura Fletcher, depending on which one of us you are working with.** Payment by PayPal (jpslabs@gmail.com) or Venmo is preferred. The Buyer may request which sex and/or color puppy they want. If the gender/color choice cannot be met in the planned litter, then Buyer is given the opportunity to move their reservation forward to the next litter, to another gender/color puppy in the current litter **if available**, or request a full refund of the deposit. The \$500 deposit will reserve a puppy until 7 weeks after the puppy is born and at that time, the balance, \$2000, is due in full from the Buyer.

Puppies will be available for pickup no sooner than eight weeks of age. Waiting lists will be kept on first-come, first-serve order. Buyer will be placed on the waiting list upon receipt of deposit. If there are not enough puppies in this litter, then the Buyer is given the opportunity to move their reservation forward to the next litter or request a full refund of the deposit. Once I receive your deposit and this deposit agreement is signed, this puppy will no longer be available to future buyers. **If you, the buyer, should change your mind and decide that you no longer want a puppy, all deposits will be forfeited.**

The balance for this puppy must be paid prior to taking permanent possession. If you are not able to pay the balance before the puppy turns 7 weeks old and you have not made prior arrangements with CaerCreek Labradors as to when you will be able to pay the balance, CaerCreek Labradors will be to assume that you are no longer interested in purchasing this puppy, therefore it will become available to a new owner and all deposits will be forfeited.
